SUMMARY

Computer Science undergraduate (CGPA 3.26) with hands-on experience using Cursor IDE and AI-assisted development to build and ship full-stack applications. Skilled in Next.js, Python, REST APIs, and SQL databases, with practical exposure to JWT authentication and RBAC/ABAC access control. Fast learner, ready to work on-site on live AI-driven projects.

SKILLS

AI-Assisted Development: Cursor IDE, AI pair programming, prompt engineering for code generation
Languages & Frameworks: Python, JavaScript, Next.js, React, HTML, CSS
Backend & APIs: REST API design, JWT authentication, RBAC, ABAC, audit logging
Databases: SQLite, relational database design, data normalization
Tools: Git, GitHub, debugging, software troubleshooting

PROJECTS

PakLaw AI (Final Year Project) | *Next.js, Multi-Model AI Pipeline*

Building a legal consistency-checking platform using a multi-model AI pipeline to detect contradictions across legal documents

Secure Company Portal | *Full-Stack, RBAC/ABAC, JWT*

Built a full-stack portal for 4 user roles with RBAC/ABAC access control, JWT authentication, audit logging, and live attack simulations

Python Data Projects | *Python, SQLite, REST APIs*

Completed projects covering SQLite database design, CSV normalization, XML parsing, and REST API integration

Other Projects | *Weather App, Instagram Clone, YouTube Clone, WhatsApp Web Clone, Rock Paper Scissors*

Built front-end and full-stack clone apps to strengthen UI development and API integration skills

EDUCATION

BS Computer Science, Capital University of Science and Technology (CUST) | *Expected 2027*

CGPA: 3.26 | Dean's Honor Roll 2025
